

GAURI BIDWAI

Full Stack Web Developer

✉ g4ur131@gmail.com ☎ +91 9158692170 📍 Akola, Maharashtra 🔗 gitusergb.github.io/ 🔗 linkedin.com/in/gauri-bidwai/

Professional Summary

Full Stack Web Developer with 1+ year of hands-on industry experience building and shipping production features across the MERN stack, Next.js, and NestJS. Experienced in designing RESTful APIs, developing admin and customer-facing portals, implementing file/image upload systems, and building scraper modules and business workflow tools. Skilled in optimizing MongoDB queries, writing efficient Node.js/NestJS services, and delivering responsive React/Next.js interfaces. Comfortable working with Apex and low-code platform components (ScaleForce) alongside core JavaScript technologies. Strong track record of unit and manual testing, debugging, and cross-functional collaboration, with active use of AI-assisted development tools (Cursor, Perplexity, Windsurf) to accelerate delivery and maintain code quality.

Professional Experience

Associate Full Stack Developer, MediaNV

12/2025 – 07/2026

Ahmedabad, Gujarat

- Developed backend features for the Form Module using NestJS, including PDF upload functionality and multiple image upload support.
- Designed and implemented RESTful APIs for the admin and customer portals.
- Contributed to the Scraper Module, building and maintaining backend functionality.
- Worked with Next.js and NestJS to develop client-facing admin and customer portal features.
- Performed unit testing and manual testing to ensure application quality and reliability.
- Leveraged AI-assisted development tools such as Cursor, Perplexity, and Windsurf to improve development productivity and accelerate feature implementation.

Technical Specialist, WarpDrive Technologies Private Limited

02/2025 – 06/2025

Jayanagar, Bangalore

- Developed and customized business solutions using ScaleForce components to meet project requirements.
- Designed and implemented a Travel Allowance module by creating custom fields and forms to capture employee travel details, including bookings, tickets, hotel check-in/check-out dates, and expenses.
- Built backend logic to streamline travel expense tracking and support expenditure calculations.
- Contributed to the development of a project workflow chatbot to help users understand the application's features and business processes.
- Worked with Node.js and Apex to develop and integrate application features and backend functionality.
- Collaborated with the development team to analyze requirements, implement solutions, and test new features.

Education

Full Stack Web Development, Masai School

04/2023 – 05/2024

Master of Computer Applications, PES's Modern College of Engineering (MCOE), Pune

06/2017 – 09/2019

Bachelor of Computer Application, Smt. RDG College, Akola

07/2013 – 08/2016

Technical Skills

Languages & Core

JavaScript, TypeScript, HTML, CSS, Apex

Frontend

React.js, Next.js, Redux, Material-UI, Responsive Web Design, Vite

Backend

Node.js, Express.js, NestJS, RESTful API Design

Database

MongoDB (schema design & query optimization)

Tools & Platforms

Git, RapidAPI, ScaleForce, Figma, Render.com, AI-assisted dev tools (Cursor, Perplexity, Windsurf)

Practices

Unit Testing, Manual Testing, Code Reviews, Agile Collaboration, Debugging & Integration

Projects

Wood Heart, TypeScript | Vite | Redux | React | JavaScript | Responsive Web Design | HTML | CSS | Node.js | Render.com

- Created a fully responsive shopping cart page using React and Redux.
- Developed the user-friendly checkout process ensuring secure transactions.
- Implemented features like filter by category, rating, and sort by price to enhance user experience.

My_Youtube, JavaScript | React | HTML | CSS | Material-UI | Media Queries | RapidAPI | Responsive Web Design

- Built an interactive YouTube clone with stunning video sections and custom categories.
- Integrated RapidAPI to fetch and display video content seamlessly.
- Ensured a responsive design that is optimized for various devices.

MoneyMingle, JavaScript | React | Responsive Web Design | HTML | CSS | Render.com

- Developed a responsive Currency Converter component using React.js, ensuring a seamless user experience.
- Implemented the Exchange Rate Display feature, integrating third-party APIs to fetch real-time exchange rates.
- Created the MoneyMingle Feedback Form allowing users to provide feedback, enhancing user engagement.
- Collaborated with team members to align frontend components with design and functionality requirements.
- Participated in code reviews and debugging sessions to ensure code quality and application stability.

Certifications

Full Stack Web Development Course

Masai School (2,160 hours of training in MERN Stack)

Figma for Developers

Masai School

Industrial Training

Maestro Intellect (6-month internship in software development)

SOFT SKILLS & INTERESTS

Soft Skills

Effective Communication, Teamwork, Adaptability, Problem Solving
